10. CONCLUSION

INSUFFICIENT DATA FOR EVALUATION

11. BRIEF SUMMARY AND ANALYSIS

Objects resembling lights the size of trailer truck tires dancing on treetops from dusk till dawn. Light is red, then blue then white. One light was green and shaped like a boomerang. Lights appear on Thursdays and Fridays over a wooded area near the witness house. When an a/c appears the lights go out. These objects have been observed for the past three months.

COMMENTS: Although witness reports observation has been made for past three months report not made until TV program on UFO's shown. Observation could be attributed to ground lights, witnesses imagination unreliable report etc. Insufficient data for analysis.

1. Attached is a letter forwarded to this office from a Mr. Thomas E. Healy, 12 Commonwealth Road, Lynn, Mass., reporting a UFO. The letter is self-explanatory.

2. On 14 August 1964, the Information Office received a call from a Mrs. [redacted], Franklin, Mass., telephone number [redacted] Mrs. [redacted] claims that since July 29th she has been spotting objects resembling lights the size of trailer truck tires dancing on the tree tops from dusk until daylight. This light is red, turning blue and then white. One light, she claims, was green and the shape of a boomerang. They appear on Thursday and Friday evenings in a wooded area around her house. Apparently when a plane flys overhead, the lights disappear.

3. A local television program presented a program on UFO's on the evening of 13 August. Whether this had any effect on the caller is hard to tell because she claimed that she has been spotting these objects for the past three months.
